Now You have to work !

- The problem:
  - Modeling a library application to manage the subscription lends.
  - There are two kinds of subscripters: adult and child.
- Rules to take books or video or CDs:
  - Adult: 7 things - with a maximum of 5 books, 3 videos and 3 music CDs.
  - Child: 5 things - with a maximum of 3 books for child and 2 videos.
- All the lends are for a period of 3 weeks maximum.
- **Goal**: give the class diagram for this application.
